

From dvspence

To  Darren Evans

State of the city

Mayor Evans, I apologize for missing meeting on Saturday, 9-9-23, as I sent, I was ill. I would like to inquire as to when council can expect the audits, budget and monthly p&l sheets? As it stands there is a voted by council proposed tax rate of .642038. No other amount was legally passed or proposed.

I have great concerns as to city staff M.I.A. most business hours and if

they are continuing to draw full paychecks. Also the illegal action of the voted out council is still at question. It has been requested by 3 council members to revisit those actions. It is also questionable as to whether Ms. Amanda Bodiford is legally seated as that was also done after elected officials were legally sworn in.

The hostile environment created by city attorney Hodges at council meetings has not gone unnoticed and needs to be put in check.

Citizens have great concerns over all of these matters and I believe they ALL need immediate attention.

FYI the cities Tahoe has been at tire shop on 751 for a week, at what cost to city?

Thank you, God bless

Council place 5
