Per our conversation on February 5, 2019, I am instructing you that you must open an account which is designated as Debt Reserve for the USDA loan as per the stipulations that were in the original loan documents.

Please open as soon as possible and start funding the account. I will be requesting the information for you from the USDA regarding the minimum deposit that should be moved to this account each month until fully funded.

This is a must do action and please keep me informed as soon as this is completed.

Thank you,

Evelyn Cupit
